LOCATION: Stewart Centre West, 2900 W. Pearl City Rd., Freeport IL 61032

INSTRUCTOR: Illinois State Police Instructors

COURSE CONTENT:

This course prepares the law enforcement officer for certification and licensing as a Breath Test Operator by the State of Illinois. Instruction includes detailed discussions on drinking driver enforcement, pharmacological effects of alcohol, legal matters relating to drinking driver enforcement, (including implied consent and case preparation for court), operation and function of breath test equipment approved for use in Illinois and laboratory training in the use of the equipment.

**Please note this class has been reduced from a 24-hour class to a 16-hour class.

WHO SHOULD ATTEND?

Every department should have officers trained and certified in the operation of breath testing equipment to meet the legal requirements imposed through legislation. The intricacies associated with making a DUI arrest, which include critical time limitations, make a trained and certified operator essential to the modern police agency.

Partial funding provided by Illinois Law Enforcement Training and Standards Board and MTU#1's request for certification of this course has been approved by the Illinois Law Enforcement Training and Standards Board

All registrations are received on the [MTU#1 website](#). Find Registration instructions [here](#)
