Mobile Team Unit #1 is funded in partnership with the Illinois Law Enforcement Training & Standards Board

Tactical Emergency Casualty Care (TECC)

DATE: February 16, 2021

Registration Ends: January 11, 2021

TIME: 8:00 AM—4:00 PM 8 Hours

LOCATION: Sycamore Police Department, 535 Dekalb Ave., Sycamore IL 60178

INSTRUCTOR: Mercy Health certified Instructors

COURSE CONTENT: This course covers topics designed to decrease preventable death in the tactical situation.

Topics include hemorrhage control; surgical airway control and needle decompression; strategies for treating wounded responders in threatening environments; caring for pediatric patients; and techniques for dragging and carrying victims to safety.

TECC delineates care for patients based on the situation and available resources and is divided into three distinct phases.

These phases have been well-proven by TCCC-trained military personnel:

1. **Direct threat care:** Care that is rendered while under attack or in adverse conditions.
2. **Indirect threat care:** Care that is rendered while the threat has been suppressed but may resurface at any point.
3. **Evacuation:** Care that is rendered while the casualty is being evacuated from the incident site.

TECC focuses on medical care during these phases and provides guidelines for managing trauma in the civilian tactical or hazardous environment. While TECC has a tactical slant, it takes an all-hazards approach to providing care outside the normal operating conditions of most EMS agencies, such as responding to a mass casualty or active shooter event.

Topics will include: Patient assessment, Tourniquets, Wound packing/trauma dressings, recovery position/chest seals/NPA, TECC guidelines, PACE methodology/IFAK equipment, direct/indirect threat movement/care. There will be skills set stations throughout the day with scenario practicals towards the end of the day.

TECC guidelines are a set of medical guidelines for use during high-threat operations where there is ongoing risk to both the patient and the provider. TECC training provides medical guidance for those who may find themselves taking care of the injured during hostile, non-permissive, high-threat incidents.

Our TECC curriculum is developed from NAEMT's Prehospital Trauma Life Support (PHTLS) Committee based on guidelines from the Committee on Tactical Emergency Casualty Care (Co-TECC) and the Tactical Combat Casualty Care (TCCC) program.

Partial funding provided by Illinois Law Enforcement Training and Standards Board and MTU#1's request for certification of this course has been approved by the Illinois Law Enforcement Training and Standards Board

REGISTRATION:

All registrations are received on the [MTU#1 website](#) Find Registration instructions [here](#)

THIS IS NOT A PUBLIC MEETING

Mobile Team In-service Training Unit #1 (ASSIST) Program
Illinois Law Enforcement Training and Standards Board
SERVING THE COUNTIES OF CARROLL - JO DAVIESS - LEE - OGLE - STEPHENSON - WHITESIDE

This class has been submitted to ILETSB for approval in meeting mandatory training for:

Mandated Annually

- Law Updates Use of Force (must include scenario based or similar approved)

Mandated once every 3 years (begin 1/1/16)

- Civil Rights Constitutional and proper use of law enforcement authority
 Cultural competency **Procedural Justice** Human Rights

Mandated once every 3 years (begin 1/1/17 all/ within 2 yrs. for investigators)

- Sexual Assault Trauma Informed Response
 Sexual Assault Trauma Informed Investigator

Mandated once every 3 years (begin?)

- Mental Health Awareness

Mandated 32 hours every four years after initial training

- Lead Homicide Investigator training
