Advanced Interview and Interrogation

The CTK Group's Advanced Interview and Interrogation Course is specifically designed for officers and investigators whose primary focus is felony level cases. Built upon the foundational game plan from the Evidenced Based Interview and Interrogation Course, the Advanced Course challenges felony-level investigators to perfect their awareness of custody and voluntariness issues. Regardless of whether you work sex abuses, narcotics, or Homicides, the Advanced Class dissects the most recent published research on interview and interrogation from across the globe, including the High Value Detainee Interrogation Group (HIG) work as it relates to cognitive interviewing, strategic use of evidence, and false confessions. We also tackle the ever-challenging issues of juvenile interrogation and interrogating inmates. This Advance Interview and Interrogation Course is unlike any other course in the United States and is specifically designed for investigators looking to take their game to the next level.
