## Breath Analysis Operator Certification

**DATE:** August 4, 2026

**Registration Ends:** July 20, 2026

**TIME:** 8:00 AM—4:00 PM      8 Hours

**LOCATION:** Dixon Police Department, 220 S. Hennepin Ave., Dixon, Illinois

**INSTRUCTOR:** Illinois State Police Instructors

### COURSE CONTENT:

This course prepares the law enforcement officer for certification and licensing as a Breath Test Operator by the State of Illinois. Instruction includes detailed discussions on drinking driver enforcement, pharmacological effects of alcohol, legal matters relating to drinking driver enforcement, (including implied consent and case preparation for court), operation and function of breath test equipment approved for use in Illinois and laboratory training in the use of the equipment.

### WHO SHOULD ATTEND?

Every department should have officers trained and certified in the operation of breath testing equipment to meet the legal requirements imposed through legislation. The intricacies associated with making a DUI arrest, which include critical time limitations, make a trained and certified operator essential to the modern police agency.

Partial funding provided by Illinois Law Enforcement Training and Standards Board and MTU#1's request for certification of this course has been approved by the Illinois Law Enforcement Training and Standards Board

### REGISTRATION:

All registrations are received on the [MTU#1 website](#). Find Registration instructions [here](#)

**Are You Expired?** A license shall be valid for a period of three years from the printed date of issuance. **After expiration**, the BAO may not operate an instrument. A BAO license that has either been revoked or been expired for more than one year cannot be renewed.

To become licensed again, the individual must complete the initial licensure course.

(This means up to one year after the three-year expiration date, the BAO CAN renew the license using the computer-based training, and does not have to attend the in-person class)
