**COURSE OVERVIEW:** This 32-hour course encompasses Controlled F.O.R.C.E. Level 1 (Arrest and Control Tactics) with Controlled F.O.R.C.E. Level 2 (Officer Survival Tactics). These courses are based on the Controlled F.O.R.C.E. Mechanical Advantage Control Holds™ (M.A.C.H). This system provides a user-friendly foundation from which other training can be built upon or integrated with. By emphasizing M.A.C.H.™ over pressure points or pain compliance, the techniques may be applied on any suspect regardless of size, strength, psychological state, or level of intoxication or chemical influence. The system teaches the officer to re-direct a non-compliant suspect's resistance or aggression against himself/herself through position of advantage, which significantly reduces the risk of injuries to both the officer and the suspect subjects they encounter, protecting departments from liability and worker compensation costs. The program has been adopted by law enforcement nationwide since 1997.

**COURSE GOALS:** At the end of this block instruction, the student will be able to achieve the following objectives in accordance with the information presented in class.

1. Recognize the reasons to take action in order to gain necessary control over someone.
2. Define all terms associated with the training received.
3. Demonstrate an understanding of, and an ability to perform, all techniques and aspects of the practical training drills.
4. Accurately explain the reason for the techniques and other options available.

**REQUIRED TRAINING EQUIPMENT:** Must bring duty gear with training sidearm that fits holster.

**This course has been certified by the ILETSB and approved to meet the following mandates:**

- De-Escalation Techniques - 24 hours / 23 hours scenario based

Controlled F.O.R.C.E. takes stringent measures to maintain the integrity of our system, remain viable in the ever-changing legal environment, and to adequately document our certification process. Our system is very recognizable, and we stand behind it 100%. Providing a Certified Departmental Instructor can demonstrate that they teach the system according to our lesson plan, and not beyond, there should never be a question as to the reasonableness of what was taught. As you know, there are too many variables as to how a system is applied in response to resistance situation for a company to guarantee that the techniques used will work as expected or be the appropriate response. However, Controlled F.O.R.C.E. will gladly provide expert testimony should the techniques that we teach ever be questioned in a court of law.
