Traffic Crash Reconstruction 1

DATE: April 27 – May 8, 2026

Registration Ends: April 15, 2026

TIME: 8:00 AM—4:00 PM 80 Hours

LOCATION: NITAB 527 Colman Center Drive, Rockford, IL

INSTRUCTOR: NUCPS Staff

In Traffic Crash Reconstruction 1, students synthesize lessons from the previous the courses to learn to determine how a crash occurred.

Incorporating the latest edition of our seminal textbook Traffic Crash Reconstruction, curriculum focuses on analyzing and interpreting information collected during previous stages of an investigation in order to describe – in as much detail as possible - the crash and the events leading to actual impact. Students apply the lessons from daily lecture material to real world case study situations – an instruction format that provides students with the training necessary to reconstruct traffic collisions. After successfully completing this course, students will have the ability to reconstruct crash situations using momentum and mechanics.

Prerequisites: Crash Investigation 1 and 2; Math and Physics Review for Crash Reconstruction and Vehicle Dynamics

This course has been certified by the ILETSB and approved to meet the following mandates:

- Lead Homicide Investigator - 80.0 hours
- Civil Rights - 1.0 hours
- Const. Use of LE Authority - 1.0 hours
- Legal Updates – 1.0 hours
- Procedural Justice – 1.0 hours
